

Panraa Clinics is an Australian-based online digital health platform. They provide telehealth consults Australia-wide and help bridge the gap between the patient and doctor.

Dr Syed H Javed from Panraa Clinics came to clique.agency when he wanted to scale up his business. Google Ads was a major part of his marketing plan and wanted to ensure it was in safe hands.

In a short 90 days we were able to increase his bookings by 4325%. This was completed by focusing solely on his most profitable lines, and reinvesting profits back into the budget, to stake his claim on the total market.

Dr Syed H Javed is now enjoying a 283% increase in his conversion rate. Ensuring that every dollar being spent in google is going towards new business.

On top of that, he is also loving a 78.3% decrease in cost per conversions, so now not only does he have more new patients than ever, they are the cheapest in the history of the company.

**"Clique Agency is one of the best marketing agency out there...
...go above and beyond to get the results.
They takes time to understand my company goals
and then makes it happen."
- Dr Syed H Javed**
